*Groove your summer ...
with the sound of June 6xteen !*

Montréal, 25 Avril 2022 - With more than a hundred stages to his credit, including the legendary Montreal Jazz Festival, Festival Intl. de Blues de Tremblant, and none other than the Bell Center during a highly acclaimed participation in the Voice Kids Canada in 2016, June 6xteen, a young and talented 17-year-old artist, launched her solo career with this single, Ruine My Life, which relates the story of a break between two people and the way one can feel during a sentimental and loving betrayal.

Ruined my life is the first part of 5 songs which will be fixed on an EP to come at the beginning of autumn 2022. This song was published in 3 versions: Anglo, Bilingual and Franco and also in Edit radio version. From its first week of release, Ruined My Life entered the Top 100 BDS Quebec Franco and has continued to progress for 8 weeks. The song even ranked in the Billboard top 50 AC Canada for 3 consecutive weeks. With this song, June 6xteen has been chosen as the future Iheart Radio Star of the Month for May 2022 and many commercial and corresponding radio stations are broadcasting it on their airwaves.

June 6xteen , an impressive voice, a sound, a signature ...

To launch her solo career, June 6xteen and her manager have chosen to surround themselves with recognized professionals and to work with creators attentive to their needs and it is therefore quite naturally that the choice of directing has worn on, The Floating Heads.

The song Ruined My Life is therefore the result of a collaboration in writing and composition between June 6xteen, Matthew Gillis & Mike Valletta.

Through her R&B Soul rhythm and her unique voice, June 6xteen transports us to the dark, heartbreaking but also rhythmic universe of her song, which perfectly expresses the feeling of betrayal in love, leading irremediably to a rupture that will leave wounds difficult to heal.

An ode to hope against a backdrop of captivating melody and an American style rooted in a Trap pop, Hip Hop Pop sound with which June 6xteen is definitely part of the movement of rebellious pop singers full of attitude of the 2020s.
