## Achievements

With over a hundred appearances on stage to her credit, this talented artist is an emeritus dancer for having won numerous Hip Hop dance competitions from an early age and she was even preselected with her team for the famous show of Jennifer Lopez - World Of Dance. But it is through her characteristic voice and in song contests that she will make herself known.

The stage is her playground! At the age of 10, she started getting on stage and she quickly climbed on the biggest stages in Quebec. In 2016, she participated in the TV show/contest "The Voice Kids". She had the chance to perform 3 times at the Bell Center in Montreal and at the Videotron Center in Quebec, in front of more than 10,000 people each time.

At the age of 12, spotted by Blu Dog Media, she was chosen to become a member of the group "Cool Kids" with who she signed her first record contract under the Musicor's label and recorded several singles in French and English as well as 2 EP albums. She won, again with the Band "Cool Kids", the "Félix" prize for "best youth album of the year" awarded by ADISQ for the album "La Guerre des Tuques". This project allowed her to perform on stage in front of thousands of people during the first parts of the summer tour of Marc Dupré. (around 10 shows)

Following her instincts and the evolution of her musical tastes, she left Cool Kids and climbed onto other mythical stages such as the "Festival International de Jazz de Montréal". At the same time, she decided to create a Blues Band called "Wild Sisters".

Winner of the very famous competition, the "Tremplin de Dégelis" at the age of 13, she earned an invitation to participate in the show "Jamais Trop Tôt" at the "Festival international de la chanson de Granby" where she got selected 3 times in a row among one of the 12 best French-speaking artists in Canada. Because of that, she then recorded 2 singles with this show project.

Although she retains a strong interest in performing musical projects with her group, "The Wild Sisters Band", she now aspires to a solo career.

Student with exceptional academic results, she finished her last year of high school and naturally headed down a pre-university artistic path. Following her passion, she started studying at "Lionel-Groulx" College in interpretation and performance. At only 17 years old, she has been developing marked skills for writing and composing original songs for several years. Influenced by great singers with Pop music, soul, Blues, R&B and electro-pop voices, it is quite naturally around these musical styles that she wrote, her first single, "Ruined My Life" & "Go To Hell" in collaboration with the "Floating Heads" and is currently working on the conception of an EP album. Both of her songs have been playing on several commercial radios since their release knowing great success. Completely dedicated to music, June 6xteen works daily to climb the steps toward success. Currently working under her own independent label, Mikado Productions, specially founded for the release of her singles and albums, June 6xteen dreams of being one of the famous Pop artists. She wants to tour around the world and perform on the biggest stages in the world. She now also wants to acquire more knowledge and experience in music production to be able to be a multidisciplinary and accomplished artist.

Selected to be part of the Honey Jam Family in 2022
