*Groove your Fall ...  
with "Go To Hell" !*

**Montréal, 01 September 2022** - With More than 100 stages to its credits, including her highly acclaimed participation to the Voice Kids Canada at the age of 10, this amazing and talented songwriter and great performer only aged 17 launched her solo career in April 2022 with its first single, titled Ruined My Life. Immediately after the release of the single, June 6xteen was chosen as IHeart radio future star in Canada and the bilingual Fr/Eng. version of the song Ruined My life reached the top 20 of the BDS 100 Franco chart in Quebec. She even reached the 43th position of AC Canadian Billboard and the best number of commercial radio entries, placed between Taylor Swift and Lady Gaga. More recently, she was chosen among the best English-speaking female artists in Canada and is now part of the Honey Jam family program, which has allowed her to perform on the legendary Toronto scene, The El Mocambo. Chosen by Warner Music Toronto for a song writing Camp, she also worked in collaboration with two other talented artists, Siobhan Bodrug & Evan Miles on an upcoming song.

*June 6xteen , an impressive voice, a sound, a signature ...*

To launch her solo career, June 6xteen and her manager have chosen to surround themselves with recognized professionals and to work with creators attentive to their needs and it is therefore quite naturally that the choice of directing has worn on, The Floating Heads.

With her brand new single "Go To Hell" and her unique vocal signature, June 6xteen, gives us a new slice of life, always in a Pop, R&B Soul style where exotic sounds, up-tempo rhythm and catchy melody mingle.

Continuing from its first single, Go to Hell tells the story of a betrayal in love in which the cheated and hurt person expresses their anger and their decision not to return with the power of a sarcastic tone. June 6xteen said: *"In my songs, I like to tell stories that people can make their own"*.

here again, it's an ode to hope against a backdrop of captivating melody and an American style rooted in a Trap pop, Hip Hop Pop sound with which June 6xteen is definitely part of the movement of rebellious pop singers full of attitude of the 2020s.
